The Auction Closing Process at Gregsons Auctions & What to Expect!

Gregsons have our own preferred method of how our auctions close and they are identical to the way our live auctions were conducted for the last 90 years – we just hold them online now!

## The process:

The 1st Lot will begin to countdown at the advertised auction closing time (i.e. 10am or 6pm, etc)Each lot is allocated a ONE (1) Minute closing window whereby bidders are provided this ONE (1) Minute to place a bid and extend the time. This point in time is very important and can only goes two (2) ways:No bids are placed - the lot will countdown for the full ONE (1) minute, the lot closes and we move on to the next LotA bid is placed - an additional ONE (1) minute will be added to the countdown of this lot and all other lots allowing the bidder/s to consider bidding again if they were just outbid - make note, there is no limit to number of times this can occur, it is up to the bidder who are fighting it out to win!Most importantly is that, the lots close in sequential order (one after the other) and if a bid is placed in the last minute of the closing lot then ALL lots within the auction will be extendedThe beauty of this system is that it allows you to watch each lot close individually and you will never miss out on a lot as they close in lot number order!Please note, invoices are issued a number of hours after the final lot has closed for each auction, if this happens to be after hours then the invoices will be issued the morning after
